HERE is the most wonderful
Heater the world has ever known.

The reason why the Buck's Hot Blast is the most wonderful heater in the world is because it is so constructed that it turns into fuel and burns the 38 per cent. of gas in soft coal instead of permitting it to escape through the chimney, as other heaters do. In a Buck's Hot Blast 1 1/4 tons of soft coal or slack will produce as much heat as one ton of anthracite or hard coal. So you can easily figure where one of these wonderful heaters will pay for itself in one or two season.

There is absolutely no Smoke, no Gas, no Soot, it is all burned up as fuel.

If you will let us demonstrate these claims to you there will be no question about your buying a

Buck's Hot Blast.

A. F. WHEELER & CO., Largest House Furnishers in the State.
